77 Division Avenue, Brooklyn, NY

SUMMARY

I am an experienced and versatile technology professional with 6 years of expertise in web development. I possess skills in a wide range of technologies, including JavaScript, React, Sass, Express, and QuickBase. Throughout my career, I have consistently demonstrated the ability to thrive in diverse work environments, having worked at both a large tech company, Wayfair, and a smaller company. I have effectively collaborated on both large and small teams, showcasing adaptability and strong communication skills. With a solid foundation in front-end and back-end development, I bring a comprehensive understanding of the full development lifecycle. My passion lies in creating high-quality, user-friendly web applications while continually staying updated with emerging technologies.
