SKILLS

JavaScript, React, Redux, Sass, Git, HTML, CSS, GraphQL, jQuery, Photoshop

EDUCATION

Team Treehouse   '16-'17
Full-Stack Web Development

Ithaca College   '03-'07
B.S. Communication Management and Design

PROJECTS

Archie & Oscar (React, Sass, GraphQL) - *Live*
- Created navigation that dynamically updates nav items into a more dropdown
- Lazy loading images below the fold and utilizing srcset for optimized performance
- Worked with designers to ensure the feasibility of new features being developed
- Set up AB tests for new features to track success of control versus variations

Brand Page Extranet (React, Sass, GrapQL, PHP)
- Added component editors so suppliers can upload content and media to the site
- Utilized Redux to manage data as content is being added through the extranet tool
- Utilized GraphQL mutations to save content and media to the DB when suppliers are ready to save their inputs

Emergency Guards (JavaScript, HTML, CSS) - *Live*
- Fully responsive site to ensure optimized desktop and mobile viewing
- Sticky header to ensure call to action is always present on the page
